

**Code of Ethics of Hotel I Dammusi di Borgo Cala Creta
Commitment to the Hospitality Experience and Sustainability**

Our facility has adopted the following code of ethics because we believe the time has come to demonstrate a commitment to the values, principles, and ethical behaviors that promote the well-being of people, the community, and the environment. These practices represent an important step towards a more just, sustainable and responsible society.

In this process we have requested the assistance of Vireo who accompanies us to help us adopt all those procedures and practices capable of minimizing the environmental impact and maintaining the GSTC certification.

This choice makes us proud to contribute to the well-being of Lampedusa and Linosa of its inhabitants and its customers.

This challenge to constantly improve and work in a sustainable way for a better future finds us fully committed also because we believe it can become an example for all companies operating in our islands.
